

Change download settings

If you are using Google Chrome as your browser, you can change a setting so that it asks you where to save downloads each time.

<https://support.google.com/chrome/answer/95759?co=GENIE.Platform%3DDesktop&hl=en#:~:text=Under%20the%20%22Downloads%22%20section%2C,save%20each%20file%20before%20downloading.%22>

Change download settings

The screenshot shows the Chrome Settings application with the 'Downloads' section selected in the left sidebar. The 'Downloads' sidebar item is circled in red. In the main content area, the 'Downloads' section is expanded, showing the current location as 'C:\Users\Jen.Stamp\Downloads' and a 'Change' button. Below this, the toggle for 'Ask where to save each file before downloading' is turned on and circled in red. Other sections visible include 'Printing', 'Accessibility', and 'System'.

Location
C:\Users\Jen.Stamp\Downloads [Change](#)

Ask where to save each file before downloading ☒

Printing

Printers

Google Cloud Print
Google Cloud Print will no longer be supported after December 31. Contact your administrator.

Accessibility

Caption preferences
Customize caption size and style for apps that support this setting

Show a quick highlight on the focused object ☐

Navigate pages with a text cursor
To turn caret browsing on or off, use the shortcut F7 ☐

Add accessibility features
Open Chrome Web Store

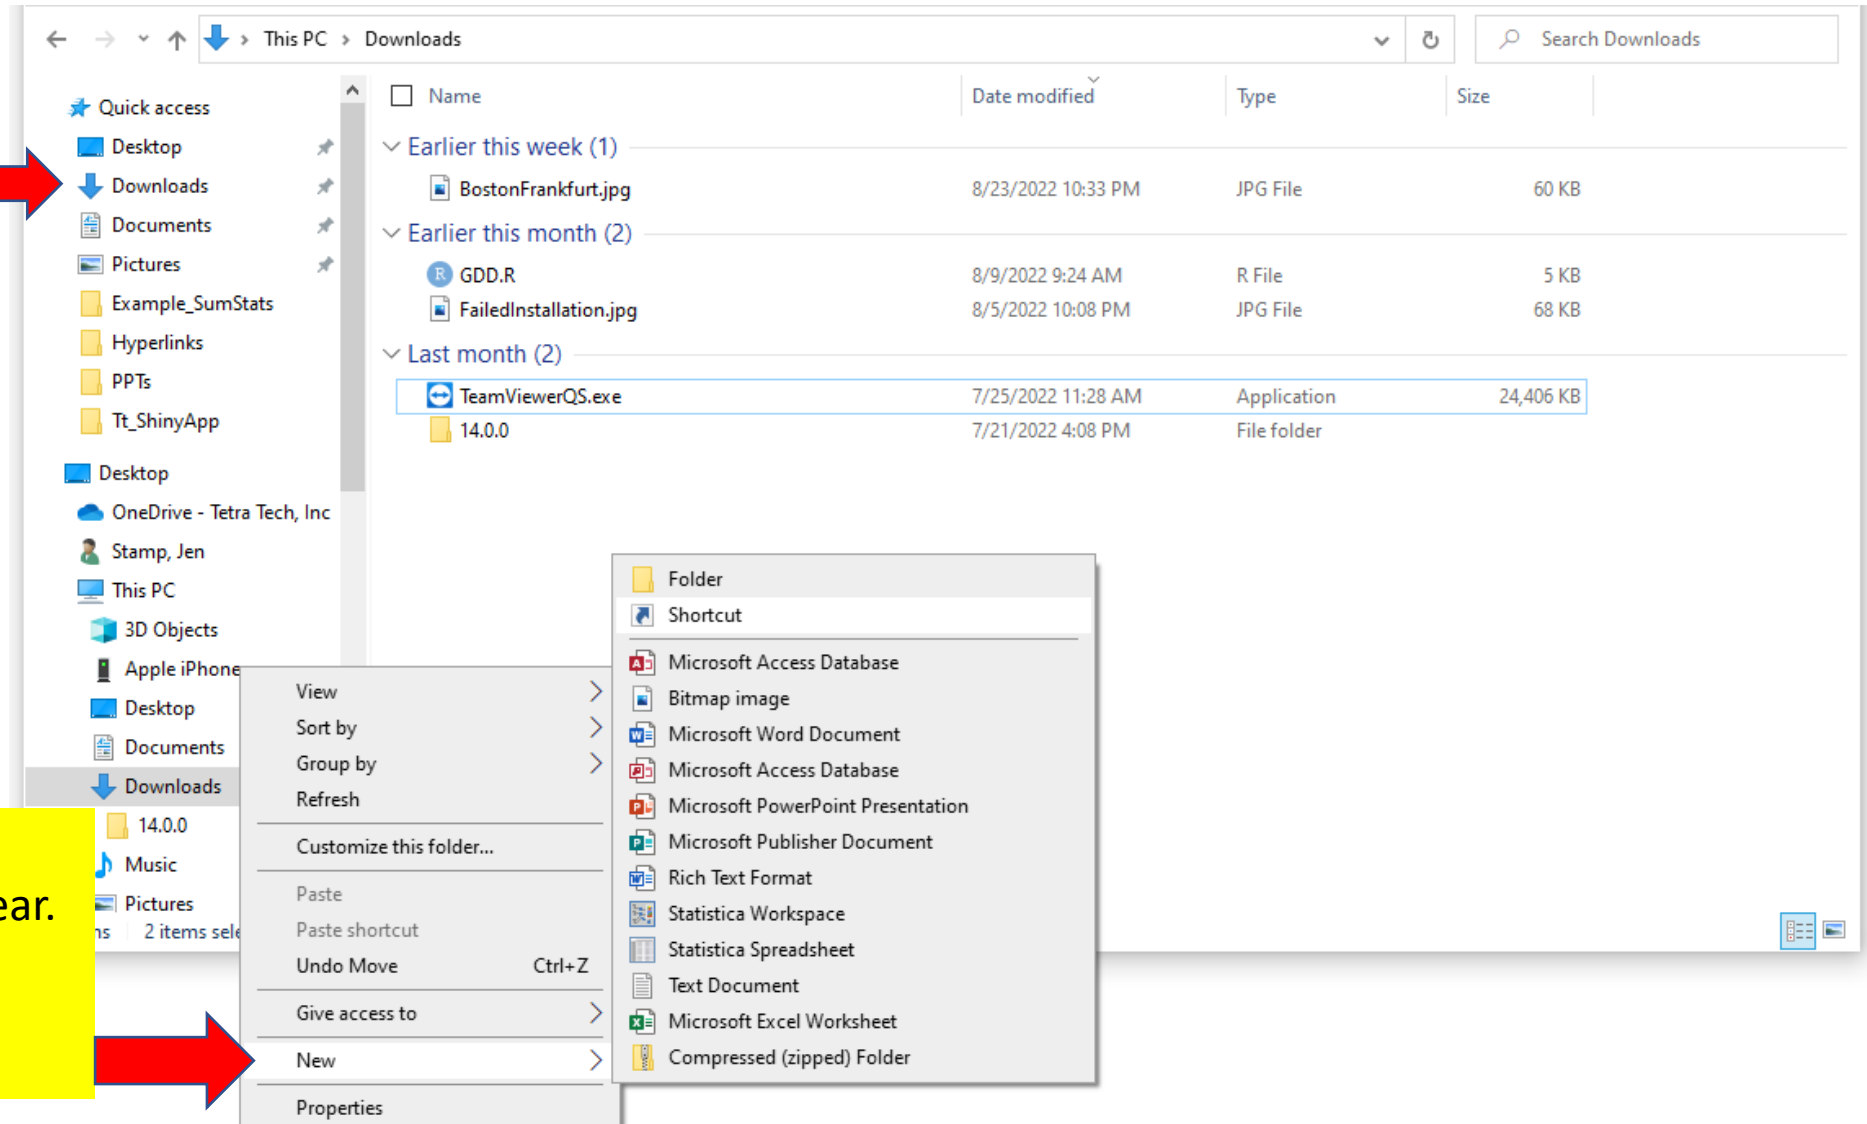

System

Continue running background apps when Google Chrome is closed ☒

Use hardware acceleration when available ☒

Set up shortcut in the Download folder

Open
Downloads
folder

Set up shortcut in the Download folder

Browse to the site folder
where you'll be putting files

← Create Shortcut

What item would you like to create a shortcut for?

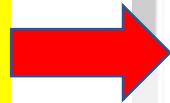

This wizard helps you to create shortcuts to local or network programs, files, folders, computers, or Internet addresses.

Type the location of the item:

Click Next to continue.

The shortcut folder will appear
in the Downloads folder.

This allows you to quickly
navigate to the desired folder
as you download files from the
Shiny app.
